Who is the teacher?

I (Julie Fitzgerald) currently teach all of the lessons. I grew up immersed in step dancing and fiddling tradition. I have performed across North America as a professional step dancer and fiddler, as well as competed in dance competitions since I was 6 years old. I enjoy teaching many students in Ontario, Canada, and I have always wanted to reach out to people across the world. My family group [Everything Fitz](#) and I have had so many opportunities to travel and meet so many folks who would love to learn this style of dance, but have not been able to since no one in their area teaches it. My passion for teaching others is the inspiration for my online step dance lesson site. I am so thrilled to share this wonderful dance form with all of you!

How difficult are the steps being taught?

There are steps and routines created for dancers of all levels. There is something for everyone on my site, regardless of age and current dance level. All of the routines are categorized based on difficulty level and I have provided an easy way for you to determine which level is best for you (please see '**Guidelines to Learning Step Dancing Online**'). The lessons are designed to be progressive so that you focus on completing a full routine and build upon the previous routine learned.
